ART

Technical Data Sheet

Reviewed: 06.06.2015

DESCRIPTION

ART is a solvent free all-purpose white glue based on PVA dispersion, clear when dry. ART is ideal for arts and crafts. Sticks all usual craft materials quickly and permanently. The parts to be glued remain re-adjustable for a short time. Dries to a tough elastic film that stays transparent. Does not alter the original colour of the surfaces. It is offered in an easy to use bottle with resealable cap.

ADVANTAGES

- Excellent bonding
- Bonds a variety of materials
- Solvent-free adhesive
- Ideal for children
- Washes out of clothes
- Dries clear
- Elastic
- Easy application

APPLICATIONS

- Bonds paper and cardboard to each other as well as to textiles, leather, cork, dried and artificial flowers, felt and many other decorative materials for art & craft applications such as sand, shells, dried foodstuff etc.
- It is ideal for arts & craft, school – kindergarten use and much more.
- May be used diluted as paint reinforcement

INSTRUCTIONS FOR USE

1. Make sure surfaces are dry, clean and free from dust, dirt and grease.
2. Apply adhesive onto one surface directly from the nozzle and if needed (for large areas) spread with a brush.
3. Assemble parts together while adhesive is still wet and apply light pressure.
4. Allow adhesive to dry before further treatment.

CLEANING

Clean residues, spots on clothing etc. with warm water while adhesive is still wet.

CONSUMPTION

100-200gr/m²

TECHNICAL CHARACTERISTICS

Base: PVA

Physical form: Thick paste

Colour: White – dries transparent

Odour: Characteristic of PVA

Viscosity: 10.000 ± 3.000 cPs

Flammability: Non flammable

Solubility: Water

Initial bonding: 30 minutes

Final bonding: 24 hours

STORAGE

In a cool and dry place at temperatures between +5°C - +25°C

SHELF LIFE

At least 2 years in unopened packaging in the above mentioned storage conditions

PACKAGING

Bottles 200gr

PACKAGING	CODE	BARCODE
200gr	02000	5204094020004

HEALTH AND SAFETY INFORMATION

EUH208: Contains Mixture of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H -isothiazol-3-one [ECno. 220-239-6] (3:1). May produce an allergic reaction

The directives contained in this technical data sheet are the result of our long experience from real life applications and the research testing of our research and development laboratory and have been submitted in good faith. Because of the diversity of the materials and substrates and the great number of possible applications, which are beyond our control, we cannot accept any responsibility for the results obtained. In every case it is recommended to carry out preliminary experiments. We are liable only for our products for being free from faults and of consistent quality. Users are responsible for complying with local legislation and for obtaining any required approvals or authorizations. The present edition of this technical datasheet automatically cancels any previous ones concerning the same product.
